

Spartacus Training

Day 8

What are we going to do today?

- ❑ Change OCC URL endpoints

How to change?

Working mechanism

Use configModule

```
ConfigModule.withConfig({
  backend: {
    occ: {
      endpoints: {
        product: {
          default:
            'products/${productCode}?fields=DEFAULT,averageRating,images(FULL),classification,manufacturer,numberOfReviews,categories(FULL),baseOptions,baseProduct,variantOptions,variantType',
        },
      },
    },
  },
})
```

Exercise

1. Change cart endpoints as per your liking. Please make sure all car operations should be in a working state.

projects|core|src|occ

In the next session we will be having a discussion session to see the progress and resolve the issues.

The image features a dark blue background with four decorative geometric patterns in the corners. The top-right corner has a teal diamond grid pattern. The bottom-left corner has a teal stepped line pattern. The bottom-right corner has a teal zigzag line pattern. The top-left corner is empty. In the center, the text "Thank you !" is written in a bold, orange, sans-serif font. Below the text is a short, horizontal orange line.

Thank you !
